

EOLOS attracts growth equity to support its future growth in combination with realising a buyout for EIT InnoEnergy

EOLOS Floating LIDAR Solutions SL ('EOLOS') is a Spanish start-up company that develops floating LIDAR buoys, with the capability to deliver cost-effective turn-key measuring solutions by gathering wind data at any offshore location

- Main clients are offshore wind farm investors that need reliable wind measurements in order to estimate the wind energy potential
- The data delivered by EOLOS significantly reduces the project's uncertainty and financial risks, while increasing its bankability
- EOLOS owns, maintains and operates a fleet of floating LIDAR buoys and sells collected wind data to its clients

- **PRORSUM AG** is a Swiss based investment company focusing on the energy, water and mobility sector. The company advises institutional investors on sustainable private equity investments while considering the Sustainable Development Goals of the United Nations

- Prorsum AG provides a significant capital injection in EOLOS. The funds will be used to accelerate the international expansion and to allow EOLOS to better serve their clients with a trend towards multi buoy projects
- JBR assisted with deal structuring, financial modeling, drafting of the information memorandum, identifying of and marketing to potential investors as well as advising during negotiations
- EOLOS chose JBR as its exclusive advisor as it has an extensive network in and expertise of the Maritime & Offshore and Energy sector

In September 2019, Prorsum AG participated in EOLOS...

...by providing a significant equity stake to accelerate the international growth and to realize a buyout

Sectors: Maritime & Offshore

JBR Corporate Finance acted as advisor to EOLOS and its shareholders

...and was advised by a JBR team

PRESS RELEASE

EOLOS, supported by EIT InnoEnergy, receives major capital boost by swiss Prorsum

September 26, 2019 | by EOLOS |

EOLOS, a start-up supported by EIT InnoEnergy, completed a significant capital injection by the entity of the Swiss investment company Prorsum AG

Rajai Aghabi, CEO and founder of EOLOS, describes the capital increase as “a significant closing for EOLOS, allowing the present team the flexibility and capability to both grow and expand globally in the market of turn-key offshore wind data measurement campaigns, not only by strengthening our financial position, but also through the extensive network within the energy sector that Prorsum can provide”.
